

HOW TO MAKE YOUR POPCORN

STEP 1;

Making popcorn is quick, and looks great for the public. Here is our first step where we have prepared our equipment. - You can see our popcorn machine, with oil, measure and serving scoop.

STEP 2;

Simply fill the kettle with a measure of oil, using the supplied measuring cup.

STEP 3;

Then fill the kettle with raw pop corn, using the supplied measure.

STEP 4;

Switch on the power. Within just three minutes the corn starts to pop, and automatically lifts the kettle lid. Tilt the head and you have wonderful smelling

and fresh, great tasting pop corn
